

OVERVIEW

SurgeAI Sourcing is a government-contracting business that supplies the physical services federal facilities depend on — grounds, cleaning, skilled trades, and food service. We identify vetted providers, screen them against SAM exclusions, and manage delivery to specification, so the buyer gets fast, compliant performance from a single accountable partner.

Pest control	561710	Fleet & equipment maint.	811310
Snow & ice removal	561730	Moving & relocation	484210

How We Work

01

Requirement

You send the requirement, site, and delivery terms.

02

Vetted provider

We match, screen, and price the right provider — fast.

03

Compliant delivery

Teaming and flowdowns handled; delivery managed to spec.

Differentiators

- **Vetted provider network.** Not a directory of cold leads — providers we've screened and can vouch for, indexed by what they actually deliver.
- **Exclusions-screened.** Every partner is checked against SAM exclusions continuously; a debarred party never reaches your requirement through us.
- **Rapid turnaround.** Tech-enabled sourcing compresses finding and pricing the right provider from weeks to days.
- **One accountable partner.** We stand up the teaming and paperwork and manage delivery — you hold one point of contact, not ten.
